REPORT OF OUR SPRING MEETING: At our spring meeting held at the Hotel Shelbourne in New York City, on May 6th, 1955, a real good time was enjoyed by all those present. A Regular get-to-gether, no speeches, just a very excellent dinner, (even seconds for those who wanted 'em) and just circulating around meeting old friends and really getting acquainted all over again for many of the members. Let's have more of this kind of meeting and believe we can fill the place to over-flowing. It seems to be the opinion of many who attended that this was one of the finest meals we have had and a real nice place at long last. At this meeting we had the pleasure of getting our 1000th member, Mr. George E. Burghard, a former President of the Radio Club of America and a real old timer. He enjoyed meeting some of the old gang and we welcome you aboard, George.

The Board of Directors of the Association met just prior to the Dinner meeting and made some changes in the line-up, naming the writer, Executive Secretary and transferring some of the duties previously done by the Treasurer, W2PF, Dave Talley, over to the executive secretary, thereby easing the workload on Dave, who has been and is quite busy with other activities.

We have new QCWA Application blanks printed and if the Secretaries of the various chapters will kindly write in, a supply of these new blanks will be mailed them. Also, any member wanting some please let me know and they will be sent forthwith.

SILENT KEYS AND MIKES: We again regret to announce the passing of more of our members since our last Bulletin was issued. W2FK Ed Rosen; W2JBN Andy Kuhn; W2GHL Jerry Mandel; W4CA J. E. Wohlford and W7BG Karl Weingarten. May they REST IN PEACE and our condolences have gone to their families. They are missed in our ranks and on the air. We also extend condolences to our former Vice President W2IN George Droste on the loss of his dear wife.
